---

<b>Technical Skills</b>	Core Java, Python(basic),MySQL, RDBMS, HTML & CSS.
<b>Soft Skills</b>	Problem-solving, Communication, Analytical skills, Organization skills.

## PROJECTS

---

### E-COMMERCE PRICE TRACKING WEBSITE :

Thiruvalluvar University [Feb 2024 - May 2024]

- The e-commerce price tracking project aims to develop a system that monitors and records the prices of products across various online platforms. Using web scraping techniques, the system collects real-time pricing information, allowing users to track price fluctuations, set alerts for specific products, and make informed purchasing decisions.
- The project also includes a user-friendly interface for managing tracked items and viewing historical price data. Additionally, it may incorporate features like price comparison and product recommendations based on historical pricing trends.

## CERTIFICATION

---

• **Java(Basic)** – HackerRank • **Python(Basic)** - HackerRank • **SQL(Advanced)** - HackerRank
